

## Hazard Assessment for Montgomery Dairy Queen

### 1. 🔥 Fire Hazards

- **Deep Fryers & Grills:** High temperatures and flammable oils increase fire risk.
- **Electrical Equipment:** Faulty wiring or overloaded circuits can spark fires.
- **Grease Buildup:** Accumulated grease in hoods, vents, and ducts is highly flammable.

In case of fire if possible, use fire extinguisher- If not Evacuate- Ensure there is no one in lobby, upstairs or anyone left in building. Proceed to Muster point by Tower.

### 2. 🩸 Cuts and Lacerations

- **Knives & Slicers:** Improper handling or dull blades increase injury risk.
- **Blizzard machine-** Make sure cover on

First aid kit available. Inform supervisor

### 3. ⚡ Electrical Hazards

- **Wet Floors Near Outlets:** Risk of electrocution.
- **Damaged Cords or Equipment:** Can lead to shocks or fires.

Keep floors dry mopped. Report damaged cords/equipment to supervisor.

### 4. 🍔 Food Safety Hazards

- **Cross-Contamination:** Raw meat contact with ready-to-eat foods.
- **Improper Storage Temperatures:** Can lead to bacterial growth.
- **Poor Hygiene:** Increases risk of foodborne illness.

### 5. 📦 Slips, Trips, and Falls

- **Wet or Greasy Floors:** Common in kitchen and dining areas.
- **Cluttered Walkways:** Boxes, cords, or equipment left out.

Keep floors dry mopped.

### 6. 🧠 Ergonomic Hazards

- **Repetitive Tasks:** Order taking, food prep, and cleaning can cause strain.
- **Improper Lifting:** Heavy boxes or equipment can lead to back injuries.

### 7. 🧴 Chemical Hazards

- **Cleaning Agents:** Can cause burns, respiratory issues, or allergic reactions.
- **Improper Storage:** Chemicals stored near food pose contamination risks.
